Extend the Range and Field Performance of Autodesk® BIM 360 Layout with Bluetooth Connectivity

No more signal loss due to WiFi interference. No more limited WiFi range. Long-range Bluetooth connectivity allows the use of **Autodesk BIM 360 Layout** without limitations.

Operate **Autodesk BIM 360 Layout** up to 500 meters from your robotic total station with a 12-hour run time. Field layout and verification have never been easier or more connected.

Rugged, compact, and powerful, Intuicom's Bluetooth Bridge maximizes the field performance of **Autodesk BIM 360 Layout** on your job site.

FEATURES

- Bluetooth connectivity outperforms WiFi while eliminating interference issues
- Communicate with your robotic total stations at distances up to 500 meters away
- Compact, weatherproof design for flexible use in the field
- Integrated battery provides 12 hours of extended run time

BENEFITS

- Enhanced connectivity between **Autodesk BIM 360 Layout** and your robotic total station
- Extended range (up to 500 meters) for improved performance and flexibility on the job site

SUPPORTED DEVICES

- iOS, Android, and Windows devices
- Industry leading robotic total stations including Leica, Topcon, and more
- **Autodesk BIM 360 Layout** compatible

GENERAL SPECIFICATIONS

Enclosure Size	Ruggedized IP-67 Aluminum Enclosure 114mm x 55.6mm x 26mm 4.5" x 2.2" x 1.0"
Operating Temp	-30° C to +85° C
Config./Charging Power	Mini USB Type B (F) Internal Battery (typical run time: 12 hrs.)

WIRELESS SPECIFICATIONS

Frequency Range	2400 - 2483.5MHz
Connection Type	Bluetooth 4.0
Range	Up to 500 meters

Specifications subject to change without notice.
